1st World Congress of Pediatric ENT

Pediatric otolaryngologists from all over the world participated in the international congress (April 7-10, 2019, BA) to learn and share their experiences and meet other specialists in the health and prevention sector. Dr Hugo Rodriguez (ENT, Hospital Garrahan, BA), Country Representative for Argentina for RSS, and General Secretary welcomed the Susy Safe team. The Susy Safe project was presented in the round table "Prevention of choking injuries in children: an update on new approaches" as an innovative tool and method for prevention.

On this occasion, the following abstracts were presented as posters/oral presentations: Data on evidence-based prevention of choking injuries: the New Susy Safe project set up; The role of the ENT specialist: from the clinics to public health; The Italian Ministry of Health Guidelines on choking prevention; The role of NGO's: the example of the CHOP project.

EuroScience Open Forum 2020

The EuroScience Open Forum (ESOF) is a biennial, pan-European, general science conference dedicated to scientific research and innovation. Each conference aims to deliver stimulating content and lively debate around the latest advancements and discoveries in the sciences, humanities and social sciences.

ESOF brings together over 4,500 leading thinkers, innovators, policy makers, journalists and educators from more than 90 countries, to discuss current and future breakthroughs in contemporary science.

ESOF is one of the best opportunities for everyone from leading scientists, early careers researchers, business people, policy makers, science and technology communicators to the general public to come together to find out more about how science is helping us advance today.

The 9th edition of ESOF will attract thousands of delegates to Trieste, the host city of ESOF2020 and the European City of Science 2020, during the week of the conference, 5-9 July 2020.

EU Safety 2019

Organized by EuroSafe in collaboration with the Luxembourg Institute of Health, this conference covers a wide range of topics related to injury prevention and safety promotion, such as road safety, occupational safety, home and leisure safety and consumer safety. The conference also offers ample opportunities for cross-sectoral communications between sectors and disciplines to address issues such as: translating research into practice and politics; socioeconomic inequalities; aging societies; technological developments; social marketing; alcohol, fatigue and distraction. The conference will bring together people with a professional interest in injury prevention and safety promotion policies. The conference will take place in Luxembourg, 3-4 October 2019.
