## New opportunities for child injury prevention

Child Injury Prevention and the Sustainable Development Goals  
Safety 2018 Pre-Conference

On 4th of November 2018 “Child Injury Prevention and the Sustainable Development Goals” Safety Pre-Conference, took place in Bangkok, Thailand.

Participants discussed on “how United Nation’s Sustainable Development Goals (SDGs) provide new opportunities for child injury prevention, identifying how child injury prevention can align with the SDGs, sharing new developments to strengthen current programs and advocacy, providing an opportunity to network with global child injury prevention stakeholders and challenging participants to explore how they can utilize what they learn to strengthen child injury prevention efforts in their own communities.”

## An analysis of the Susy Safe Registry presented in San Diego

The annual meeting and Expo of the American Public Health Association, was held in San Diego from the 10th to the 14th of November 2018. This year the main theme was focused on “Creating the Healthiest Nation: Health Equity Now”.

On this occasion Susy Safe presented the poster “Burden of battery foreign body injuries in young children: An analysis of the Susy Safe Registry”.

## EPBA launches awareness campaign on button battery safety

“The European Portable Battery Association (EPBA) developed an animated video which gives parents all the necessary information on the safe use of button and coin cells. It also highlights the steps to be taken in case a child has swallowed such a battery.” The video is available on [youtube](https://youtu.be/nwLLFJUcphw): <https://youtu.be/nwLLFJUcphw>

## SRA 2018 - New Model for Assessing Choking Risk in Children

From the 2nd to the 6th of December 2018, risk enthusiasts joined at the SRA 2018 in New Orleans to address this year’s theme, “The Many Faces of Risk,” that was intended to showcase inclusion, a cornerstone of SRA and vital to the ability to address today’s most pressing risk issues.

Susy Safe participated presenting the poster “An Enhanced Model for Assessing Choking Risk in Children”.

## TriesteNext 2018 - Scientific Research Festival

28-30 September 2018. Trieste Next is an “observatory” where applied research and new technologies are visible, a “laboratory” of concrete ideas and practical solutions, a “showcase of innovation” and applied research. Over the last few years, the Susy Safe registry has always been present at the annual event, informing the public on the activities carried out and how to prevent injuries.
