Susy Safe working group: Latest publications

International Journal of Pediatric Otorhinolaryngology.
Foreign Body injuries in children in India: Recommendations for prevention from a comparative analysis with international experience.

French M, Lorenzoni G, Purnima, Azzolina D, Baldas S, Gregori D, Gulati A. 2019 Sep; 124:6-13. doi: 10.1016/j.ijporl.2019.05.020. Epub 2019 May 21.

EAPS 2020

EAPS 2020 Virtual Congress: 16-19 October 2020

<https://eaps2020.kenes.com/>

To adapt to the current situation, the EAPS board has decided to transform the 8th Congress of the European Academy of Paediatric Societies (EAPS 2020) into a fully virtual event that will offer the community the possibility for educational exchanges, scientific news and best practice updates while protecting the safety, health, and well-being of all congress participants.

The virtual congress will take place between 16-19 October 2020. Virtual sessions will allow for live interaction, and will be available on-demand in the weeks following the congress.

APHA 2020

APHA's first-ever Virtual Annual Meeting and Expo <https://apha.confex.com/apha/2020/meetingapp.cgi/Home/0>

The Annual Meeting and Expo bring together thousands of public health professionals to present, learn, network and find inspiration for the important work they do. Registered attendees will have access to 700+ scientific sessions and events on critical public health topics, many focused on COVID-19 and the APHA 2020 theme, "Creating the Healthiest Nation: Preventing Violence."

Susy Safe Working Group

There is some news with respect to the Susy Safe Registry activities:

A new collective study on the injuries caused by button batteries: this type of injury has increased in some countries in recent years and we would like to conduct a new collective study on these injuries, with recent data.

The aim is to provide scientific evidence, based on recent data, to support prevention activities to counteract the occurrence of these injuries in children.

To participate, Doctors should share data relating to battery injury cases, observed since 2015. Contact us for information on the study!

The new Susy Safe Working Group channel on Telegram

Click on the link to join the group:

<https://t.me/joinchat/MP-4Yky7jkGMINx6AY2SRg>

The group has been created to:

- * exchange news and experiences on the topic of FB injuries;
- * promote participation in webinars and conferences;
- * propose studies and collaborations;
- * promote fundraising and donation campaigns;
- * invite colleagues to participate in the Susy Safe Project.

ESPO Webinar Recording: Pediatric Otorhinolaryngology and COVID-19

An interesting webinar available online on the implications of COVID-19 for ENT pediatricians. Contents and link: <https://espo.eu.com/news/covid-19-information/espo-webinar-recording-pediatric-otorhinolaryngology-and-covid-19/>

- ⇒ General update about the epidemic and about SARS-Cov-2: Adam Finn, Bristol
- ⇒ Focus on the prevalence, the contagiousness and the symptoms in children: Adam Finn, Bristol
- ⇒ Consultations : remaining indications and specific precautions, especially regarding flexible naso-endoscopy and laryngoscopy: Marc Pellicer, Barcelona
- ⇒ Precautions regarding medical treatments in pediatric ENT: François Simon, Paris
- ⇒ Hearing tests: remaining indications: Luisa Monteiro, Lisbon
- ⇒ Surgery: preop assessment, remaining indications and specific precautions: Ari de Rowe, Tel Aviv
- ⇒ Conclusion: Vincent Couloigner, Paris, Chairman of the ESPO Education & Training Committee

A warm welcome from all of us to a new participant from Poland!

The Susy Safe Project now counts with the participation of 55 countries!
